Jurnal Tribologi (JTrib) is a publication of Malaysian Tribology Society (MYTRIBOS). This journal is an open access of peer-reviewed international journal, dedicated to the rapid publication of high-quality papers on the important subjects both in areas of tribology and emerging fields, in which closely related to friction, wear and lubrication.

JTrib aims to publish full research papers of original, significant and highest scientific quality, and so to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in established areas of tribology and emerging fields. The journal features a mix of experimental, numerical, and theoretical articles dealing with all aspects of the field, including, but not limited to:

- Bearing Design and Technology
- Bio- and Eco-tribology
- Biomimetics in Tribology
- Condition Monitoring in Tribo-systems
- Contact Mechanics
- Lubricants, Lubrication and Additives
- Nano- and Micro-tribology
- Tribo-chemistry and Tribo-corrosion
- Tribology in Machine Elements
- Tribology in Manufacturing
- Tribology in Transportation
- Tribology of Materials
- Tribo-surfaces
- Surface Engineering and Coatings

As Chief Editors, we would like to extend our gratitude to all contributors who have made important contributions towards the overall quality of this 24<sup>th</sup> volume of JTrib. Most of the papers were accepted and presented at the International Conference on Advanced Processes and Systems in Manufacturing 2019 (APSIM2019) and Malaysia-Singapore Research Symposium 2019 (MS-2019).
